Profile Cooler LGA-P1 Rev.2
for Intel Socket LGA775

The LGA-P1 Rev.2 Profile Cooler for the Intel LGA775 socket is Revoltec's new low profile cooler for current Intel processors.

Technical Data:

Dimension incl. Fan	95 x 95 x 45 mm
Weight incl. Fan	224 g
Compatibility	Socket LGA775
Bearing	Fluid Rifle Bearing
Voltage	12 VDC
Current	0,20 A
Fan Speed	2000 RPM
Noise	26,1 dB(A)
Air Flow	34,7 CFM
Lifetime	50.000 hours
Thermal Design Power (TDP)	max. 79W
Connector	3-pin

Low-Profile aluminium cooling element

The extra-compact low-profile cooling element is produced out of aluminium and is especially well suited for use in small, flat PC systems.

An optimal portion of the heat-conducting paste comes pre-applied on the cooling element.

Quiet 95mm fan

The pre-installed 95 mm fan provides an efficient air supply. With maximum noise levels of 26.1 dB(A) and an air flow rate of 34.7 CFM, the unit is both powerful and quiet.

Logistic Data

Weight:
Net: 224 g
Gross: 440 g

packaging size:
105 x 105 x 95 mm (LxWxH)

manufacturer number:
RK020
